

Tax Credit Option Year for Projects Allocated 1990 - 1995

* During the "Option Year" Owners may ask the Commission to locate a buyer for their property in accordance with "Qualified Contract" rules outlined in the IRS Code. The "Option Year" (or one year period) begins once an Owner officially notifies the Commission in writing of his/her intent, and provide all required marketing information. This period can start at any time after January 1 of the "Option Year". Please note Owners should check their regulatory agreement to verify accuracy. This chart is for information purposes only.
