Define BIPOC Ownership/Organizations:

*Current Language:*

The Commission will award points for projects in which the Ownership Entity is more than 50% BIPOC owned or controlled.

A BIPOC entity is defined as:

- For Profit – more than 50% of the ownership identifies as BIPOC
- Non-Profit – at least one of these is true at the time of application
  - More than 50% of the board of directors identifies as BIPOC
  - Its executive director or chief executive officer identifies as BIPOC

**Feedback to Commission:**

“The Commission has to stop asking people, specifically the heads of organizations, if they are People of Color. If I self-identify that way, that should be the end of that question or discussion... Is it really fair or appropriate? To give an organization five points because its executive director is a person of color? That’s an effort to do something positive that has a negative effect. Would a white person be asked if they are white?”

Points for Racial Equity in Development Team
OPTIONS FOR 2024:

1. Leave the points, and the procedure for documentation of identity, in place while engagement is conducted, and then make policy/procedure changes that result from the engagement in future years.

2. Remove the policy, and all points associated with it, while engagement is conducted. The results of the engagement will be turned into a new policy/procedure in future years.
Discussion for 2025:

• Should we expand incentives in application and engagement process to include BIPOC architects, property managers, service providers, etc.?

• How should we determine an entity’s racial identity in order to achieve this?

• Should we change the determinants for Nonprofits (e.g. Board Makeup and CEO Identity)?
“You know a disadvantaged organization when you interact with it. You don’t have to make them check a box.”

Discussion for 2025:

• Are the definitions of CMH/CBO appropriate?
• What is “community intelligence”, as far as it relates to a CBO’s role in the community it is working in/ supporting?
• Is the current CBO interview process working?
Incentives for Developers to Partner with CBOs

“We are not sure how much changes to the points system leveled the playing field. There were plenty of opportunities for larger organizations to get points in other ways.”

Discussion for 2025:

• Are the options for points adequate and appropriately gauged?
• What are some examples of financial incentives CBOs could be offered?
Engagement of Communities Most Harmed

Discussion for 2025:

• What does “meaningful community engagement” look like and mean?
• Is the current Community Engagement documentation process working? Are the toolkits helpful?
• Should we establish a point scale based on level of CMH engagement on part of CBO and developer partner?
  • What would be sufficient documentation/proof for this?
Decision-Making Power for CBOs

Discussion for 2025:

• How can our policy promote decision-making power for BIPOC organizations and/or CBOs without placing undue burdens on their shoulders?
• What role should the Commission play in negotiations?
CBO Support/Resources

Discussion for 2025:

• What support and/or resources do CBOs need—
  • For application
  • For negotiation of partnership terms
  • During pre-closing
  • During construction
  • During ownership/management phase
  • At Year 15 Exit
Process for CBO Co-Design of Policy Revisions

• How do CBOs want to engage?
• What involvement should Commission Staff have?
